

*Mucho Fun, Mucho Lusco, Mucho Fusco*

Lusco Fusco is a plucky, swanky, even dashing, 3D animation studio working on high-quality and highly spirited short and feature films, TV series and advertisement! We're looking for talented artists to join our team in future projects at our studio in Braga.

Our team is eager to bring heart-warming, scary, or entirely genre non-conforming ideas to life – creating the crème de la crème, the custard of the pie, the swooshy cupcake cream of animation! After our work in Kafka's Doll we are currently undertaking two new and exciting animation tv shows (My Brother is a T-Rex; Bento) and a captivating feature film that we can't reveal right now because of reasons.

We invite professional and aspiring animators, artists, and visionaries to come meet us at the Recruitment Fair in Mundos Digitales and show us your true colours.

We're looking forward to it!
